

## Quality CareYOU CAN COUNT ON

Our caregivers genuinely care about the people they support. We also conduct a thorough screening process. All members of our staff have passed a criminal background check, and are tested for illegal drug use. Plus, Danville Support Services is licensed with the State of Utah and insured. You can feel safe and secure knowing that your loved one is being cared for by someone who is fully qualified to provide the highest quality in-home care. To continuously improve our quality of care, caregivers receive ongoing competency-based training in small workshop settings where they learn to correctly and consistently deliver over 50 different services.

## THE DANVILLE TEAM IS HERE TO HELP

Easing the Burden on Caregivers No matter how much you love your parents, serving as a caregiver can be exhausting. Especially with a full-time job and the emotional strain that often accompanies the decline of a loved one. But unfortunately, that's the reality of age. Today, there are more than 6.5 million Americans suffering from Alzheimer's Disease, according to statistics from Alz.org, and one in nine individuals over the age of 65 are at risk of memory loss. If you're taking care of a loved one with memory-care needs, it's easy to run yourself ragged. There are medications to manage, obstacles to watch out for, and basic activities such as eating, bathing, and using the restroom that need to be considered. That's in addition to keeping your own life in order. Wouldn't it be nice if you had an extra set of hands to help with your current responsibilities? Call Danville today for that extra help 801 363-1521.

**"Helping Seniors since 2000" Danville is there when you can't be there Danville Support Services is a trusted and award winning provider.**
